Fundamental Methods of Mathematical Economics ...

This third instalment will introduce the third and final author on the final economist in our series, with E. Roy Weintraub's discussion of Gerard Debreu (1921-2004). In 'How Economics Became a Mathematical Science' (2002), Weintraub sketches the history of the mathematization of economics from the perspective of changing images in mathematics. In Weintraub's account, Debreu explicitly rejected the use of physics and physical analogies in economics in favor of the pure Bourbakian ...
