Patient Care in Radiography - 10th Edition

As a member of the Radiological Society of North America (RSNA) Patient-Centered Radiology Steering Committee, I was involved in a recent project in which we surveyed 694 RSNA members on various aspects of patient-centered radiology. Of these, 611 members (89 percent) agreed that promoting awareness of radiology's role in patients' overall healthcare is important to how they practice.

Back to Basics in Patient-Centered Care in Radiology ...

By Gurney. When a patient is moved from a gurney to a radiographic table, or the reverse, great care must be taken to prevent injury. If the patient is unconscious or unable to cooperate in the move, the patient's spine, head, and extremities must be well supported.

Patient Care and Safety | Radiology Key

And, care expressed in between was perceived as care in the traditional sense and termed as "patient care in radiology." ... F. Blomberg, C. Brulin, R. Andertun, A. RydhPatients' perception of quality of care in radiology department: A medical physical approach. Journal of Radiology Nursing, 29 (1) (2010), pp. 10-17. Google Scholar.

"Patient Care in Radiology"—The Staff's Perspective ...

'An equally essential role - that people can often overlook - is that radiographers work closely with their patients. They interact with them on a daily basis and have an important role to play in patient care and patient safety in a modern imaging department.

Pivotal role in patient care for radiographers

Technologists play a central role in the radiology department, and many of their responsibilities depend on effective communication with patients: taking histories, verifying patients' identity and the procedure to be performed, screening for safety, providing instructions and ensuring that patients understand all instructions, answering questions promptly and accurately, explaining postexamination care, and coordinating patient care with efficient and effective use of resources (Figs 1, 2 ...
