Productivity and Inequality (eBook, 2018) [WorldCat.org]

We also find that the poverty-reducing impact of productivity growth is stronger in countries with relatively low income inequality. These findings suggest that countries attempting to reach their objectives of eradicating poverty should pursue policies that foster productivity growth; and that productivity growth that is accompanied by progressive distributional change is even better for ...

Springer Proceedings in Business and Economics Ser ...

We estimate the impact of education on productivity, wage costs and productivity-wage gaps (i.e. profits) using Belgian linked panel data. Findings highlight that educational credentials have a stronger impact on productivity than on wage costs. Firms' profitability is found to rise when lower educated workers are substituted by higher educated ones.

Does education raise productivity and wages equally? The ...

Over the past few years, there has been a renewed interest on inequality. At the global level, there has been an increase in the concentration of income and wealth with a number of economic, social, and environmental consequences. In this article, I study the relationship between different forms of inequality (namely, income, wealth, and land concentration), agricultural intensification, and ...

The impact of income, land, and wealth inequality on ...

Past studies of scholarly productivity show dramatic epistemic inequality: scientists at elite institutions produce the majority of research articles , play an outsized role in setting the pace and direction of scientific achievement [2, 14, 33, 42], and receive the majority of both professional awards and recognition [3, 12, 27, 28, 45].

Prestige drives epistemic inequality in the diffusion of ...

Economic inequality is accelerating globally and is a growing concern due to its negative impact on economic opportunity, health and social welfare. Taxes are important tools for governments to reduce inequality. However, finding a tax policy that optimizes equality along with productivity is an unsolved problem.
